

### **Car Of The Month**

#### **Michael Kent's 1987 Mazda B2600 4x4 pickup.**

Dad bought this pickup for me from Craig's List for \$600. It has the G54B engine that was used in many other vehicles. So far we have replaced the fuel pump, carburetor and a blown head gasket. It has a pretty good body and interior, but there are a lot more other things to fix before it is ready for the road.
