## Car of the Month

**Bob and Joan Duffin - POLARIS RZR 1000 XP**

Well ! ..... Joan and I passed thru the midlife crisis without a problem. But we definitely had a Senior crisis. Joining our friends and family at the dunes has been an unexpected and thrilling experience. We have traveled to the majestic sand dunes at St. Anthony's in Idaho, to the beautiful dunes by the ocean in Winchester Bay Oregon, and of course played in our sand dunes here at home. This is the most fun I've had since the pursuit course at the WSP academy.

This is the 3rd, and biggest 4x4 side by side that we have had. It has a twin cylinder, water- cooled 110HP motor. The suspension has 18in of travel to smooth out the ride. Power steering and a host of options. Yes, we wear helmets and drive safely.
